MEDICAL ADVICE ... keep the bowel action regular and comfortable

... make constipated spells as rare as colds ... avoid danger of bowel strain -use a liquid laxative

Why Hospitals use active senna.

Can constipation be overcome? "Yes!" say medical men. "Yes!" a perfect movement, with no discomfort at the time, or afterward.

Evening Worship—7:00 o'clock. W. M. S. meets every Monday afternoon at 3:30, the place to be declare thousands who have followed their advice and know.

You are not apt to cure your constipation with salts, pills and tablets, or any habit-forming cathartic. But you can overcome this condition just by gentle regulation with a suitable liquid laxative.

Dr. Caldwell's Syrup Pepsin has the average person's bowels just as

Wednesday evening, 7:00 o'clock. the average person's bowels just as regular as clockwork in a few weeks' Pepsin is stated plainly on the label; fresh herbs, pure pepsin, MOTTO:-"Never A Stranger Why Hospitals use a liquid laxative

The dose of a liquid laxative can be measured. The action can be controlled. It forms no habit; you need not take a "double dose" a day or two later. Will not irritate kidneys.

active senna.

Its very taste tells you syrup pepsin is wholesome. A delightful taste, and delightful action. Safe for expectant mothers, and children. Drugstores have it, ready for use, in big botties. God enlarges him.

Safety "Nevers"

While electricity is one of the safest forms of energy known for furnishing light and power, nevertheless there are certain precautions that should be observed in connection with the safe use and enjoyment thereof. Some of these are enumerated here for the benefit of our customers and the citizens of the communities which we serve: Never tamper with any electrical apparatus until you are sure the current has been cut off.

Never touch an electrical appliance, switch, or lamp socket while tanding in a bath tub. Never install or use a metal lamp socket or switch where it can be

touched while standing on the ground or on a concrete floor. Never replace a fuse or fuse plug until the current is cut off from

Never allow an exposed lamp socket to remain within reach of a Never permit children to climb poles carrying electric wires.

Never permit children to fly kites near electric lines. A damp or metal kite string may cause instant death if contact is made with a high voltage wire.

Never touch an electric wire that has fallen to the ground. Always use a dry stick, dry coat, or other non-conductor in freeing anyone in contact with a "live" wire. Use of your own hands without protection is dangerous and may add another victom to the acciden. Your cooperaion in observance of the above precautions will assist

Dorsey Sez:

son willing to look—facts and action of which you and I can be proud.

In the early Spring of this year there were actually and proportionately more people out of work in this country than in any other nation in the world. Fair estimates showed 12 or 13 millions unemployed last March. Among those there were, of course, several milling to look—facts and action in the world. Among those there were, of course, several milling to look—facts and action in the world. So, too, we have, as you know, expended greater sums in cooperation cooperation with States and localities for bublic works money, nearly all of it intended for State or local projects, waits only on the presentation of proper projects by the sened for very simple reason that though several milling proportionately more people out of work in the coming Winter cannot be lessented for very simple reason that though several million people have gone back to work, the necessities of those who have not yet obtainable that although the prices of many products of the farm have gone up and altitudency intended for State or local projects, waits only on the presentation of proper projects by the samed localities themselves. Washington has the money and is waiting for the proper projects to which to allot it.

Another piller in the actions, such as those undertaking slum clearance. The balance of the farm have gone up and altitudency intended for State or local projects, waits only on the presentation of proper projects by the same localities themselves. Washington has the money and is waiting for the proper projects to which to allot it.
